NOTES:

Yellow highlighted (shaded) areas represent data gaps. Further information is required here for the reference details to be complete.

Items highlighted in green will be categorized into other sections.

This list is based on the Faculty structure after the inter-faculty movement of staff that occurred around mid-2008.

Research outputs that have been co-authored by persons from different faculties and other departments working together have been placed under the faculty or department of the first author.

The underlined names represent names of USP staff that authored or co-authored the research outputs while being employed by USP. The names in green font represent names of students who authored or co-authored the outputs as part of their studentship at USP. Some names are underlined and in green font at the same time because it is uncertain whether the outputs produced were a result of these persons’ employment or studentship at USP.
